Mrs. W. L. Reeder Entertains At Informal Tea

Mrs. W. L. Reeder had an informal tea Sunday afternoon in honor of Miss Ethel Dismukes, president of the Magnolia Art Association, a statewide organization, so that she might meet a number of people in Bay St. Louis who are interested in art. Miss Dismukes stressed the fact that the Magnolia Art Association was interested in art and artcraft and in no way in conflict with local art associations, that its scope is statewide and not confined to one locale in the state.

Miss Dismukes said that, many years ago, she was enroute to Dallas, Texas, and while passing through Biloxi, via Back Bay, she was so impressed with the beauty of moonlight, the reflection in the water and the white sails of boats on the bay, that she decided to make Biloxi her home. This she did and has been associated with the Art Department of the public schools there for many years. She and Mr. William Woodward organized the Magnolia Art Association several years ago and it has been growing steadily since.

Mr. Bob Crofton, who has done the murals for the Broadwater Hotel and many other buildings along the Coast, is vice-president of the organization. Other guests at the tea were Mrs. Edward M. Heath, Mrs. Elizabeth Crasie, Mrs. Gertrude Saucier, Mrs. Gladys Bartlett Jones, Mrs. Stella Ward, Mrs. Wayne Ducombe, Mrs. S. T. Assenheimer and Mrs. Reeder's sister, Mrs. C. R. Parker, of New Orleans.

Miss Dismukes suggested that members in the Bay have a local exhibit soon and invited entries in the Spring Exhibit, on April 23rd, at the Community House in Biloxi. Entries will be received on and from 3 to 5 p. m. They will be hung on Friday and Saturday and exhibited on Sunday.

MEDALS AND TROPHIES ORDERED FOR RELAY RACES

Gold, Silver and Bronze Medals for the runners on schools finishing first, second or third in both the High Schools and elementary schools on February 22nd, when the relay races will be pulled off have been ordered and will be in possession of the Officials so that immediately at the conclusion of the races the lucky runners may receive their awards. The trophies for the schools have also been ordered and will be on hand for the different schools.

Reports from the different schools throughout the county are that each school is training faithfully and if county records for anything records are pretty apt to be broken.

In 1948 Dedeaux won in the High School division in the splendid time of 14:10.40, a record better than 60 minutes.

Waveland won the 2 1/2 mile race in a little better than 14 minutes. A meeting of the officials of the races will be held sometime next week for final arrangements. The school representatives will be advised of any possible changes in hours of races. It is hardly likely that the hours of 2:30 p. m. for the start of both races will be changed.

Watch this paper for any further news of the races.

PROPOSED STATE ADOPTION LAW SCANNED AT MEET

Jackson, Miss.—Opposition to a six months waiting period and too large a role by the Welfare Department emerged as principal objections to a proposed revision of the state's adoption code.

The issues were raised at a public hearing attended by judges, lawyers and women's organization representatives from Vicksburg, Meridian, Summit, Hattiesburg and Lamar.

The new bill was introduced in the house three weeks ago by Rep. Evelyn Gandy of Hattiesburg. It calls for a pre-adoption investigation of all parties before final court action, a delay of six months before issuance of the final decree, and includes numerous safeguards for the privacy of the adopting parents and the child.

Jesse Shanks, Lamar attorney, told the meeting he feared the bill would give the Welfare Department veto power over the courts in case of an adverse report.

Miss Gandy pointed out that the bill provides that while the Welfare Department investigation is in progress, its findings are not binding on the judge. Chancery Lester, chief of Hattiesburg voiced general approval of the measure. But objected to the six months waiting period. Under present Mississippi law, adoptions can be completed in a day.

"When you place a child in someone's home for six months and then find you have to take it away, you're going to tear someone's heart out," Clark declared. He cited several cases in his court where a family cared for a child of different national descent, and wanted to adopt it.

Mrs. Mary Carr of Summit, president of the Mississippi Federation of Women's Clubs, Mrs. E. P. Perry of church woman's group; Miss Leila Russell of Meridian, representing the junior auxiliary there; Laurie Mae Carter of Meridian, who said she spoke for four women's clubs; and Mrs. Joe Stone of Vicksburg, of the American Association of University Women, all endorsed the measure.

Bay-Waveland Garden Club Members Visit Crump's Garden

At the invitation of Mr. and Mrs. James Lyman Crump, extended to Mrs. J. R. Rollins, president, members of the Bay-Waveland Garden Club and friends motored to Holly Bluff on the Jordan, the picturesque home of the Crumps, last Thursday afternoon.

Holly Bluff obtains its name from the many holly trees, Chinese, English and Southern holly, which grow on the peaceful charm of the scene. The river is glimpsed down a slope overlooking with countless moss covered trees, and again down a walk dotted with colorful azaleas, ardisia and many varieties of camellias. The long paths through the woods and along the river are covered with pine needles, which make walking untiring and a pleasure.

Near the entrance is an old wheel from a grist mill and deep in the grounds is a stone building with a bell housed on top, which might be taken for a chapel, but is used as a museum for rare objects of art collected by Mr. Crump. In it are fine old laces, ivories, silver, glassware, pottery, ceramics and tapestries.

The spacious home of the Crumps is made entirely of logs, 48 foot long cypress beams and the roof is of hand-hewn shingles from cypress. The guest house is a log cabin furnished entirely with hand made furniture.

After a tour of the grounds, the guests went into the house where delicious sandwiches, brownies were served. Mrs. Walter Gex presided over the coffee service at one end of the table, and at the other, Mrs. H. A. Eldredge poured tea.

Everyone returned home feeling relaxed and refreshed after spending a wholly delightful afternoon.

NOT GUILTY

It has always been our contention and that of every law-minded American citizen that a person as innocent and proven guilty. According to our American way of life even the most hardened criminal is given a chance to prove his innocence before a jury of twelve citizens who are the final judges of his fate. But on Monday St. Louis there were twelve men sitting in their actions do not allow a man to prove his innocence before a jury of twelve citizens who are the final judges of his fate. But on Monday St. Louis there were twelve men sitting in their actions do not allow a man to prove his innocence before a jury of twelve citizens who are the final judges of his fate.

This was the case on Tuesday of this week when Mayor Carter was tried for the murder of a man named NONE. I want to state that I am not a lawyer and I am not qualified to say whether or not Mayor Carter is guilty or not. But I do want to state that I believe that Mayor Carter is innocent and that he should be acquitted.

Well, it is now everyone knows the results of that trial. Mayor Carter was found guilty of the murder of a man named NONE. I want to state that I am not a lawyer and I am not qualified to say whether or not Mayor Carter is guilty or not. But I do want to state that I believe that Mayor Carter is innocent and that he should be acquitted.

We believe that Mayor Carter is sincere in his plans for a greater Bay St. Louis and we will stand by him and assist him in every way possible toward the upbuilding and betterment of our community.

WATCHING THE GROUNDHOG

There are many well-known sayings about the weather, attesting the effort of man through the ages to understand the uncertainties of future days.

One of the most celebrated methods of forecasting the weather "for the next six weeks" occurs on Thursday, February 2nd, which is known in the eastern part of the United States as "Groundhog Day."

The supposition is that the groundhog, coming out of winter quarters, will return to sleep if he sees his shadow, thus indicating six more weeks of winter. If the day is cloudy, he will stay out because this means an early and balmy spring.

We have no idea that the groundhog is an accurate weather prophet but, like many other Americans, we will give a passing thought to the kind of day that faces him when he emerges from his hibernation. Experts assure us that belief in the groundhog's prediction is not connected with any religious festival or custom and we readily believe it.

NO USE TO NEGOTIATE

American officials are said to be divided in their opinion as to whether this country should go ahead with the production of a super bomb, described as one thousand times as deadly as the original atomic bomb.

The production of a hydrogen atomic bomb is said to be possible, at no exaggerated cost, but there is difference of opinion as to whether it should be undertaken before another effort is made to reach an agreement with the Soviet Union about atomic power.

It is difficult for us to see where there is much to gain by negotiating with the Communists. Let us assume that they agree on regulation, there still remains the vital question of inspection to insure compliance with any understanding. This the Russians have repeatedly rejected.

Without adequate inspection and control, there would be no great reliance upon any paper promise made by the Russians. There would be the chance that, working in secret, the Russians would go ahead with atomic developments. It would be too late to discover this fact after an aggressive war got underway.

"Well, last year showed the South is not solidly behind the administration's programs. And I believe it still not."

Told that Georgia Governor Hiram Talmadge said he did not go to the conference because the state legislature is in session, Wright answered: "My Legislature is in session, too. But that isn't my excuse for not going."

All members are invited to attend. The Feb. review, the popular best seller, "Mr. Preen's Salon" by Bob Tallent, will be reviewed by Mrs. Mauffray. The March review will be at the home of Mrs. Horace Thompson on Nicholson Avenue. This Club now in its second successful year of reading and reviewing has met with such enthusiastic response by its members that each meeting is keenly anticipated.

Beginning on the night of Sunday, February 5, Methodist revival services will be conducted every night until Friday, February 10 at 728 Beach Blvd. Services will begin each night at 7:30 o'clock. Rev. Roy Wolfe, Conference Director of Rural Evangelism, Mississippi Conference, will lead the preaching and Rev. O. H. Scott, District Superintendent of the Seashore District, will lead the revival singing. Rev. R. H. Schurman, Jr., pastor of the Clermont Harbor Methodist Church, will assist. Everyone who is interested is invited to attend these services which will be conducted primarily to stimulate interest among the people of Waveland in the building of a Methodist Church in Waveland.

Festive plans are being formulated rapidly these days for the gala Carnival which is going to be held at Keeler Field on the evening of Wednesday, February 15. Mrs. Johann Craft, who is sponsoring the Junior Women's Guild, an organization composed of young unmarried women from Waveland, Bay St. Louis, and Pass Christian, has been helping several of the Waveland girls, who are going to be maids in the Carnival Court, make their evening dresses. The girls will be dressed in pastel gaudies made with full tight bodices and voluminous skirts. They will carry fresh flowers. Nine girls from this area have the honors of being active participants in the Carnival Court. Mary

COLMER EXPLAINS
WAGE-HOUR RULING

Biloxi, Miss. Congressman W. M. Colmer has advised local sea food interests of the interpretation of the wage and hour division as it applies to the packing industry.

It is pointed out that the industry is exempt from the hours provision of the wage and hour law, but that there is no objection to piece work providing the minimum standard is 75 cents an hour.

The law as originally passed by the house exempted sea food packers, but the Senate did not retain this provision, Colmer advised. He also stated that the administrator of the law had offered to send a representative to the Mississippi Coast to discuss its provisions.

Salt Lake City - Of the nineteen occupants of the city jail, who were released on Christmas Eve as recipients of Christmas Eve pardons, thirteen were back behind bars the day after Christmas most of them charged with drunkenness.

Lynn Raymond of Bay St. Louis is to be the Maid of Honor, Charlea Burns, Beatrice Favre and Margaret Miller, all of Bay St. Louis, are to be maids, and Barbara Jenkins, Little Donella O'Brien, Pass Christian, will be a junior maid. Needless to say, this event is being looked forward to by all members of the Junior Women's Guild. The girls have been enjoying Wednesday night dances at the Keeler Field Base for several months now. Once again orchids to Mrs. Craft for her fine management of this young group.

Reverend Elio B. Echlin, DD, PsD, from New Orleans was a guest Sunday afternoon at Craft's Anchorage, where she spent much time in Mrs. Craft's greenhouse admiring the African violets which are growing there in such colorful profusion.

Mrs. Gertrude Hall has been on the sick list for the past week being confined to bed with a severe case of flu.

The old saying "When winter comes, can spring be far away?" can hardly apply to the wonderful weather we have been having these last few days. Looking about us at the wonderful color provided by so many blooming camellias and azaleas, there can be little doubt in our minds that certainly spring cannot be far away. In fact, we tell ourselves, "Spring is here." But what happened to winter? Aren't we going to get a chance to burn that new cord of wood? Whatever has happened to those nights we looked forward to sitting before the fireplace with a good book while outside old Jack Frost worked himself down to about 28 degrees? The popularity of the new hit song "Button Up Your Overcoat" never came about because of weather like we've been having. Lots of week-enders motored to Waveland Saturday and Sunday and enjoyed the first signs of spring to the fullest. (Of course all we need by the time this column is printed is a good, hard freeze and from then on I'll leave all weather predicting up to the weather man!) Folks from New Orleans in Waveland over the week end were Mr. and Mrs. Henry Angelle; Mrs. A. Bologna; Mr. and Mrs. Carl Callahan.

Mr. and Mrs. W. B. Jackson of Gulfport, Mississippi, visited Mr. and Mrs. R. C. Bordages Sunday.

Mr. and Mrs. G. W. Tucker went to New Orleans Monday.

THE SPORTSMENS' TENT

CONSERVATION PLEDGE
I give my pledge as an American to save and faithfully to defend from waste the Natural Resources of my Country — its Soil and Minerals, its Forests, Waters, and Wildlife.

Sportsmen have always sounded off loud and clear in the interests of "Conservation." They are the first to ever do anything about it too. BUT, a few sportsmen; a handful of clubs and a couple of national organizations will never conserve nor instigate the conservation of natural resources to the point of offsetting the waste that the unthinking general public practices.

That little old pledge you there at the top of this column if recited, written and thought out daily by a few groups of citizens will accomplish wonders and eventually show dividends; however, "eventually" is not good enough — We must ALL practice conservation NOW.

About the best way to distribute the idea of Conservation is to distribute the Conservation Pledge or at least place it where people will see and read it — Make everyone "Conservation Conscious."

MARDI GRAS AND FLOATS
So, I now lay a proposition before you; yes, I might say "a challenge." There are surely a couple o'hundred sportsmen here in Bay St. Louis and that should be plenty of manpower to build a float and enter it in the coming Mardi Gras parade (may even win a prize). A float with the Conservation Pledge theme with posters of wildlife and natural resources prominently and attractively displayed to bring before the public the need for constant conservation.

Surely if enough of you men who are honestly interested in the improvement of our natural resources to drop me a card stating your desire to cooperate, we could arrange a meeting and plan a very impressive entry for the coming event. — ARE YOU GAME?

(By the way, there are some swell ideas in the Feb. "Outdoor Life," p. 52-53). It will certainly be worth our while to shoot up, but there are a few people, cows and buildings that could do with some protecting. Maybe it wasn't so funny after all to have a reminder printed on the licenses.

Korean hunting licenses carry the following: Hunting on public streets, shrines and temples is not permitted. Firing at building, people, cattle and street cars is not permitted.

Perhaps you got a bit of a giggle out of that, I did... at first. Then I began to wonder if maybe it wouldn't be such a bad idea to print at least part of those rules on our own licenses.

cat and a pig ahead of a horse but I am prejudiced so will only pass the findings on with no comment... except maybe that I don't see people listed anywhere.

WHO CAUGHT IT?
William Hawkins and Benton Parker of Holly Springs, Miss., were crappie fishing from the same boat on upper Sardis Lake when both got a smashing strike at the same time. Pulling in their lines, the two anglers found they had both hooked the same bass, one that weighed six and a quarter pounds. Hawkins and Parker are still arguing over who took the big bass.

According to official records, 7,605,000 persons, or about one out of every eight workers in the country, are drawing Government pay, to the tune of approximately \$22,000,000,000 a year. The total includes members of the armed forces and school system employees.

**do you think were installed  
in Mississippi in 1949?**

The year 1949 was such a big year in the growth of telephone facilities and service, we thought you would like to know some of the facts and figures. Here's the story of the year in brief:

**New Telephones**

More than 46,000 new telephones were installed in Mississippi last year! That's a lot of telephones, requiring the addition of huge quantities of wire, cable, poles, central office equipment and new buildings or building additions.

**Rural Telephones**

Many construction crews were busy stringing lines in rural areas throughout the state last year. During the year more than 13,300 new rural telephones were installed.

**Money Spent**

This vast expansion and improvement of telephone service in Mississippi in 1949 cost more than \$11,330,000. This was over and above other millions of dollars paid out in Mississippi for operating expenses.

**New Buildings**

Six new buildings or building additions were completed in the state last year and work is under way on other new building projects for 1950.

**People at Work**

At the close of 1949 there were more than 4,000 people employed by Southern Bell in Mississippi. Wages for these men and women amounted to millions of dollars—a substantial contribution to trade and prosperity throughout the state.

Mississippi and the South are growing as never before and we are continuing our all-out effort to make telephone service constantly more valuable and available to more and more people.

**"My Friend Irma" Coming To Star Theatre Sun. & Mon., February 5th & 6th**

The girl everybody loves to laugh at, who has been convulsing radio audiences, is all set to do the same for movie fans. She is curvaceous Marie Wilson, popularly known as "My Friend Irma," and word has it that on the screen she is even more riotously funny than she is on the air.

"My Friend Irma," produced by Hal Wallis, has all of the familiar characters of the radio program, plus a couple of others to add extra laughs and songs to the film. There are Irma's constantly unemployed boy friend, Al, played by John Lund, Irma's friend and roommate, Jane, portrayed by Diana Lynn, Jane's millionaire boss, Richard Rhineland, played by Don DeFore. The role of the girl's landlady, Mrs. O'Reilly, is filled on the screen by the same actress who plays her on the air—Gloria Gordon, and the role of Professor Kropotkin is performed by another member of the radio cast, Hans Conried.

In order to fit the new night club and radio sensations, Dean Martin and Jerry Lewis into the framework of the story, two new characters were created for Paramount's film version, which arrives Sun. and Mon., February 5-6 at the Star Theatre. As Rhineland's rival for the affection of Jane, Dean is said to prove himself a great romantic film star. He sings three new Livingston and Evans tunes—"My Own, My Only, My All," "Here's to Love" and "Just for Fun." And critics say that the antics of Jerry Lewis are in a class to establish him as one of the top entertainers on the screen as well as on the air and in night clubs.

### Thanks, Folks

I am deeply grateful to those friends who voted against my removal from office in Tuesday's special election. Especially thankful am I to those who worked so hard in my behalf during the short campaign and on the day of the election. And to those friends both inside and outside the city limits who prayed for my success, I owe a debt of lasting gratitude.

Towards those who voted for my removal from office, I wish to sincerely say that I hold not the slightest animosity or ill will.

I earnestly hope that the decision rendered by the electorate on Tuesday will be the means of bringing about harmonious relations and friendly cooperation within the Commission Council.

#### SINUSITIS NOW HELPED

ST. PETERSBURG, Fla.—The She made her decision and after bread disease of many thousands careful tests and analysis she started of people throughout the country, a course of adjustments that were minus and asthma were the burden even to bring her the much sought relief from pain and unpleasantness caused by both diseases.

SHE SAYS that after the first adjustment she was able to lie flat for restful sleep rather than remain propped up on pillows for the first time in years. Each succeeding adjustment brought its measure of help, and after only eight weeks she felt that she was completely well and happy in the new found relief.

THE story of Elizabeth Hayden is not extraordinary; it is perhaps recounted hundreds of times each day throughout the country and the only distressing fact according to the lady, is that more of the thousands of sinus and asthma sufferers throughout the nation do not avail themselves of this relief.

ACCORDING TO her statement, she had spent thousands of dollars in seeking aid in her trouble with none but extremely temporary results. Considered allergic to almost every food she consequently lost about 30 pounds and spent nine weeks in a hospital without getting any better. Administrations of various drugs were of no help either.

Information reached her after she had been in Florida for some time that chiropractic could help asthma.
